

Instructions to make the Modern Classic cushion

Width and length of finished cushion is approximately 44 x 44 cm or 17 x 17 inches

Notions

- ½ meter of fabric (I used a soft blue linen fabric)

1. Cut a piece of fabric slightly larger than the actual cushion will be in size

2. Mark the centre of your fabric

3. Start stitching design "Modern Classic_01"

- Select the colour thread in which ever colour that would best co-ordinate with the fabric you have chosen for the bridge, I chose a white fabric.
- Lay the fabric you have chosen for the bridge over the stitches you have just stitched

- Take the hoop out from the machine and cut the fabric back to the stitches you just stitched out. Put the hoop back into your machine

4. Take the design out of your machine

Stitch out the following designs

- ❖ Modern Classic_04
- ❖ Modern Classic_05 (stitch out 2 of this design)
- ❖ Modern Classic_06
- ❖ Modern Classic_07
- ❖ Modern Classic_08

5. Once you have stitched out all of the above, cut very carefully with scissors around the satin stitch of each panel

6. Place the above panels around the centre design and I like to hot glue in moderation the panels down so that they do not move
7. Zigzag each panel down in the same coloured thread as you used for the satin stitch border on each panel

8. Place each panel as you can see in the above photo

9. Once I have the circle the way I would like I then used "Painters Tape" to secure each of the panels down, then I lightly hot glue each panel down
10. Zigzag stitch each of the panels down
11. Finish the cushion
